

Hackapalooza | Partnership Offerings

General

Logo included on our website (hackapalooza.dev)

All partners and sponsors will be listed on our website at <https://hackapalooza.dev> under the Partners & Sponsors section.

Mentioned during opening and closing ceremonies

All partners and sponsors will be mentioned and thanked during the opening and closing ceremonies.

Special role in our Discord server

All partners and sponsors will be given a special role in the Discord server so that Hackathon participants can identify partners. Representatives' names will appear in a separate color and in a separate category in the members list.

Workshops

Host a workshop

Partners and sponsors will be given the opportunity to host a workshop during the event, subject to review by our organizer team and time-slot availability. If this is something a partner is interested in, please let us know the topic of the workshop and the estimated duration of the workshop.

Host a game or activity

Platinum partners will be given the opportunity to host a game or activity event in between workshops to engage participants or allow them to take a break from hacking, subject to review and availability.

Advertised or mentioned during all workshops

Platinum partners will be mentioned at the start of all workshops organized by our team (not including workshops or events hosted by other partners).

Recruiting

Receive resumes of attendees

Platinum partners will be able to receive the resumes of hackathon attendees who provide their resumes and opt-in to share their resumes with our partners.

Request interviews with members

Platinum partners will be able to request interviews for hackathon participants who opt-in on registration.

Prizes and Categories

Custom prize offerings*

Partners will be able to provide their own prizes for winners of existing prize tracks or categories. Hackapalooza will help distribute all digital prizes towards designated participants!

Branded swag*

Partners will be able to offer swag to attendees, including digital items or physical swag such as shirts or stickers.

Custom prize tracks or categories*

Platinum partners will be able to set up their own prize tracks or categories for attendees to work towards. This could be a great way to encourage participants to use specific APIs or products in their hacks. Partners will be able to judge submissions and choose winners for their own prize tracks or categories.

* Partners will be responsible for purchasing or shipping their own items if they choose to offer prizes or swag. Hackapalooza will assist partners in getting contact or shipping information for winners or attendees, but will not be responsible for purchasing, shipping, or providing prizes or swag to attendees or winners.

If you are interested in partnering with Hackapalooza, please email us at **team@hackapalooza.dev**.

Hackapalooza is fiscally sponsored by Hack Club Bank, a project by The Hack Foundation (d.b.a Hack Club), a 501(c)(3) nonprofit (EIN: 81-2908499).
